

HOW TO DOWNLOAD ZOOM FOR MAC COMPUTERS

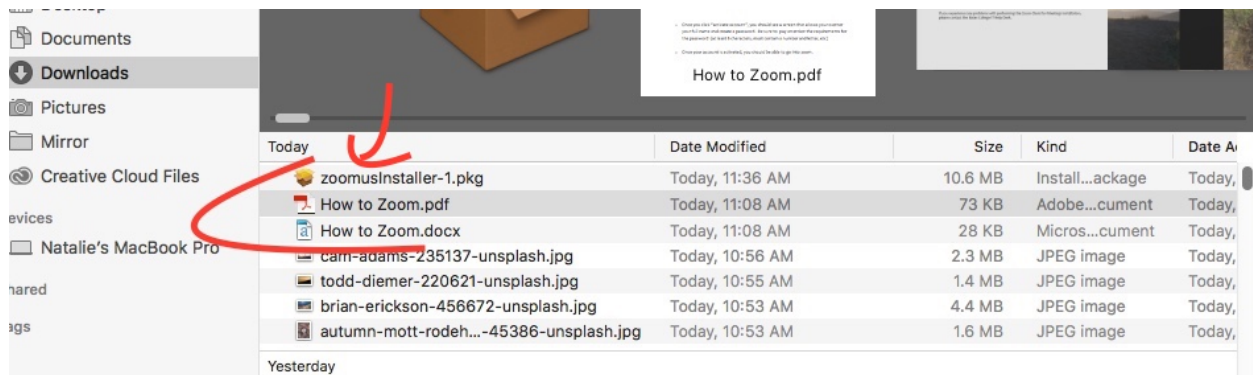

To ensure a pleasant experience with your first Zoom Meeting, please download and install Zoom Application before our first meeting.

To download and install the Zoom Application:

- Go to <https://zoom.us/download>
- *click* on the **Download** button under “Zoom Client For Meetings”
- Click ok to begin download

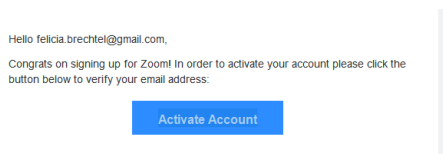

- Click continue
- Find the completed download in your downloads tab and click on zoom installer

- You will then be asked to either join a meeting or sign in.
- Select “sign in”.
- At the next screen Select “sign up” from the top center of the screen to create an account.

- Enter your e-mail address. You will be sent an e-mail to verify the address. If you do not receive the e-mail, check your junk mail folder.
- You will receive an e-mail that will allow you to activate your account. It will look like this:

A screenshot of an email from Zoom. The text reads: "Hello felicia.brechtel@gmail.com, Congrats on signing up for Zoom! In order to activate your account please click the button below to verify your email address:". Below the text is a blue button with the text "Activate Account".

Hello felicia.brechtel@gmail.com,
Congrats on signing up for Zoom! In order to activate your account please click the
button below to verify your email address:

Activate Account

- Once you click “activate account”, you should see a screen that allows you to enter your full name and create a password. Be sure to pay attention the requirements for the password (at least 8 characters, must contain a number and letter, etc) and keep track for future use
- Once your account is activated, you should be able to go into zoom.

If you experience any problems with performing the Zoom Client for Meetings installation, please contact Zoom Support (<https://support.zoom.us/hc/en-us>) or Natalie (info@gutzjourney.com).
